## Niseko Winter Staff Training Program 2021

Niseko, long known for its hot springs, has become famous in recent years as a ski resort area welcoming tourists from all over the world. Although travelers are awed by the scenery, snow, and cuisine, it's safe to say that the *people* in Niseko are what leave the biggest impression. As we approach the two year anniversary of the ongoing COVID-19 pandemic with businesses and individuals alike finding themselves in dire situations, this year's winter season nevertheless is expected to bring in both domestic tourists and seasonal staff to the area, even if not on the same scale as in pre-COVID times. While we are confident in the ability of local companies to provide outstanding training programs for their staff, we would like to once again offer the Niseko Winter Staff Training Program this winter for anyone who is interested.

This year's training session will be held online in English only. Similar to last year, the program will not include a winter driving course. We apologize for the inconvenience and ask for your understanding.

We will offer the course according to the schedule below. Please do not hesitate to contact us if you have any questions.

Sincerely,  
The Niseko Tourism Zone Council
